

Skull Valley, Arizona
May 20, 2009

What do the Museum of Modern Art and Skull Valley have in common?
They are both currently celebrating the American West!

MoMA is honoring the romance of the vanishing American West with a stunning photographic retrospective titled "Into the Sunset: Photography's Image of the American West examines how photography has pictured the idea of the American West from 1850 to the present."

"These are the pictures that the grand narratives of the West have been spun," associate curator Eva Respini writes.

Skull Valley, Arizona, is in the heart of cowboy country and represents the very best of the authentic American West. And for the very first time, a handful of dreamers will be given the opportunity to actually own piece of the land of legends: Iron Horse Ridge, in the historic ranching community of Skull Valley.

"Just as the Museum of Modern Art celebrates mystic of the American West, Iron Horse Ridge in Skull Valley is a tribute to the enduring allure of the West, and all its breathtaking, natural beauty. This truly is one of the last, best places in the American West. We invite you to bring your families and your horses and live the dream in the West."

MoMA: The Museum of Modern Art
Presents: Into the Sunset: Photography's Image of the American West March 29, 2009-June 8, 2009
Special Exhibitions Gallery New York
